

# COUPA OPTIMISATION WITH XOOMTUNE

## VIDEO TRANSCRIPT

Accenture logo

Deliver optimal value from your S2P implementation

Gain a continuous improvement programme to maximise your ROI: source, contract, purchase, receive, pay

XoomTune analyses data extracted from your production environment

Providing actionable insights. Performs rapid health checks and helps you fully leverage S2P system functionality

XoomTune highlights key steps to take to start realizing the benefits:

Review contract renewal date profile in line with sourcing pipeline plan

Review and amend supplier payment terms to realise identified cashflow improvement opportunities

Review the reasons for the low ration of sourcing event responses from the invited suppliers

Review and enrich catalogue item data to drive spend against associated contracts

... and many more

Deliver savings and reduce risk from sourcing activities

Increase compliance and highlight system anomalies

Achieve quick wins and longer term improvements

Extracts and models the right data, providing valuable insights to unlock your ROI

And delivers on your procurement business case
